About This Game

Scuttlers is a Multiplayer Asymmetric Platformer where you race your friends to the finish, avoiding different types of traps and obstacles. Every round, players are assigned either the **Runner** or the **Leader** role.

The aim of the game is very simple: Runners must reach the end of the map as fast as possible, while the Leader uses abilities to stop them from doing so. At the end of each round, points are given based on the players' performance. The player with the most points after the last round wins the game.
